# Membership fee rules of AutomationML e.V.

### Universitätsplatz 2, 39106 Magdeburg, Germany

*Note: The English version of the membership fee rules is a translation for information only. Binding is the German version as of April 13th 2011.*

### § 1 Basement of membership fees

(1) Following the Association Statutes the funds AutomationML e.V. necessary to reach the association aims are mainly raised by membership fees.

(2) Membership fees are yearly fees payable latest until the last day of the first month of the business year or until the last day of the month of the declaration of accession.

### § 2 Amount of membership fees

(1) The amount of membership fees depends on the type of membership. The following membership fees are valid.

   a) Promoting member                    9.900,- Euro

   b) Contributing member              2.750,- Euro

   c) Academic member                  550,- Euro

(2) In case of a declaration of accession during a business year the membership fee will be calculated using the following formula.

Membership fee = (Yearly membership fee of member type / 12) * (Number of month from declaration of accession to the end of the business year including the month of the declaration of accession)

### § 3 Payment of membership fees

(1) The payment of membership fees is based on invoices to the bank account of the association. Case payment is excluded.

(2) The association board is responsible for the adequate and orderly billing of membership fees at the start of a new business year.
